

# **Wellness Tracking Ring MOCK PROPOSAL**

Dave Ernest

## 1. Components

### GPS Device-

As seen in the Popular 'YOU' Netflix series. This ring shall have the GPS capabilities of being able to be tracked by the user or many users. Users should be able to track the exact location of a ring upon logging to their MUUD account.

### Fitness-

The ring will have the capabilities of sending distance walked, calories burned, Workout intensity maps based on locations, level of fitness based on current activity, inactive periods, and tracking an individual's fitness goals for a certain period. All information will be displayed in the individual's app in their MUUD account.

### Health-

The ring will track vital measurements of the ring holder such as: heart rate, average heart rate, body temperature, Body fat percentage, body mass index, and average sleep time.

## 2. Design

The design of this ring can be found below. The color shall be purple to signify the MUUD projects health goals for the community. There will be more colorways in the near future. The rigid extrudes on the outside design are for aesthetics. All of the sensors will be on the inner band of the ring.
